

$135 + 278$

Step 1: Draw place value disks to represent both numbers.

Hundreds	Tens	Ones	
			135
			278

Step 2: Add each place value, changing ones for tens and tens for hundreds, if necessary. (See next page.)

Step 2: Add each place value, changing ones for tens and tens for hundreds, if necessary.

Step 3: Count the place value disks left in each place value column and write the answer.
